

Interview with the winner Viktoria

Varengold: Hello Viktoria! Congratulations! We're really impressed with your performance.

Viktoria: Thank you. I'm excited to be here.

Varengold: Tell us about yourself briefly.

Viktoria: Ok, my name is Viktoria, and I'm from the Stuttgart area. I am 31 years old, married, and work as a product manager in the chemical industry.

Varengold: How did you find out about the Trading Challenge?

Viktoria: I searched on the internet for a German bank that offered forex trading. From a search engine, I found the Trading-Challenge. Taking part in the Trading-Challenge was a good opportunity for me to take a look at Varengold and its trading platform.

Varengold: How long have you been trading Forex? What sparked your interest in Forex?

Viktoria: I've traded Forex for 3 years, and was first introduced to FX by my husband. I've been a self trader for 10 years – I started with stocks, and from warrants and options, I finally ended up with leveraged products.

Varengold: What do you think of the Varengold Fox?

Viktoria: Based on MetaTrader, it's the best that there is – it's simple, transparent, and the analysis tools are easy to use.

Varengold: Let's talk about your trading performance and your results in the Trading-Challenge. How many days did you face a loss?

Viktoria: Not a one. However, on some days, I didn't trade at all.

Varengold: How did you manage that? Did you use a trading program or an expert advisor (EA)?

Viktoria: No, I didn't use any EA. I developed an indicator that shows me long term developments. In addition, I intensively use chart analyses and daily forecasts from analysts. If all of the signals point in one direction, I make the decision with my husband whether or not we should give an order.

Mr. Coban (sales department head), the winner Viktoria, and Mr. Henke (project manager) (l.t.r.)

Varengold: Can you explain more why you make the decisions with your husband?

Viktorija: Of course. In my opinion, it's tough to consistently make rational decisions. A trader needs a lot of patience and discipline to do that. To lock out emotional decisions, I make my decisions together with my husband, and we keep each other in check.

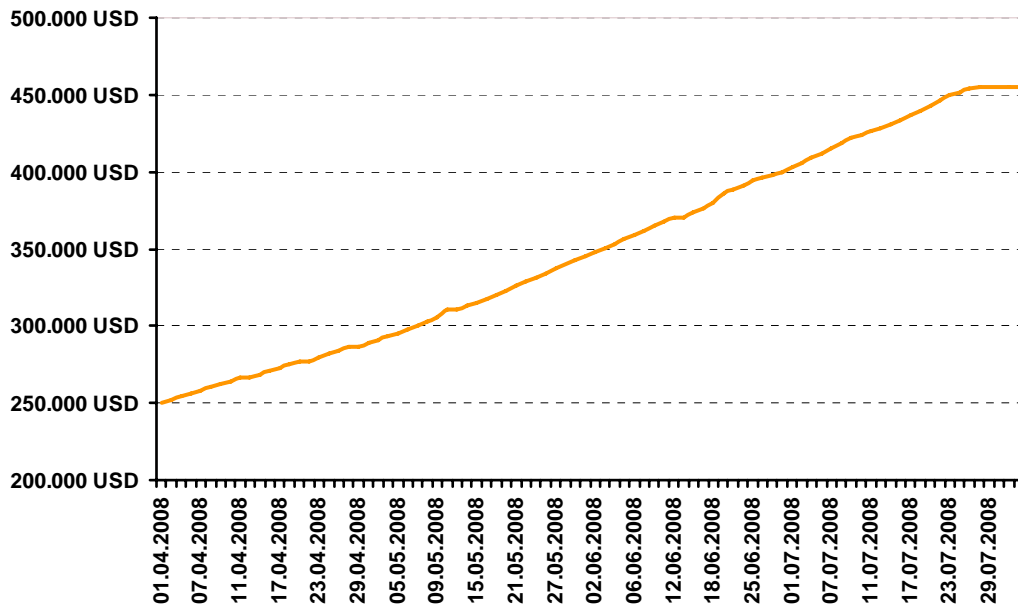

Varengold: That's an interesting approach. Which currency pairs did you have the most success with?

Viktorija: I only focused on two currency pairs – EUR/USD and EUR/YEN.

Varengold: You're receiving \$250,000 USD, and there are a lot of requests from third parties for you to manage their accounts. Is there anything you want to change?

Viktorija: I'm going to keep the strategy that I used in the Trading-Challenge. However, I plan on somewhat reducing the leverage compared to the Trading-Challenge. My monthly target returns are in the single digit range.

Varengold: Viktorija, thank you for your visit in Hamburg.
